Why Use the Our Hidden Heroes Learning Resource?

In the document *Safe Schools Policy and Practice: An Agenda for Action*, published by the Ontario Ministry of Education in June 2006, the Safe Schools Action Team recommends that:

“To help achieve positive school climates, schools should actively promote, support and reinforce positive behaviours. A multi-pronged approach ranging from school-wide campaigns, celebrations of achievements for the school, groups or individuals as well as the day to day interaction with students and staff all contribute to creating a secure and welcoming climate that enhances learning.” (p.6)

Based on this recommendation, the ministry responded with Policy/Program Memorandum 145, which states, in part:

“The ministry acknowledges the importance of actively promoting and supporting appropriate and positive student behaviours that contribute to and sustain a safe learning and teaching environment in which every student can reach his or her full potential. Linkages to ministry initiatives such as character development and the Student Success Strategy are key in promoting and supporting appropriate and positive student behaviours.

Prevention

Prevention is the establishment and use of programs such as bullying prevention and citizenship development, as well as other positive activities designed to promote the building of healthy relationships and appropriate behaviours.¹ Generally, prevention measures and initiatives include the whole school and all aspects of school life. Schools that have prevention and intervention strategies foster a positive school climate that supports academic achievement for all students. Boards and schools should focus on prevention and early intervention as the key to maintaining a positive school environment in which students can learn.

A positive "school climate is a crucial component of prevention; it may be defined as the sum total of all of the personal relationships within a school. When these relationships are founded in mutual acceptance and inclusion, and modeled by all, a culture of respect becomes the norm."² A positive climate exists when all members of the school community feel safe, comfortable, and accepted.

Programs and activities that focus on the building of healthy relationships, character development, and peer relations provide the foundation for an effective continuum of strategies within a school and school-related activities. These supportive strategies and empowerment programs are the basis for creating a positive school climate."³

Recommended Use of the Our Hidden Heroes Learning Resource

When begun early in the school year, the *Our Hidden Heroes Character Education / Social Responsibility Program* sets the stage for developing a positive, supportive, caring and inclusive classroom culture that will endure throughout the year. When embraced school-wide, the *Our Hidden Heroes Program* sets the same tone within the entire school and can reach out into the community by creating opportunities such as in-school displays of your students' work, publishing their Hidden Heroes stories on the Our Hidden Heroes web site and/or in local newspapers (a media release form is provided) and an in-class celebration of Hidden Heroes they have written about.

Character education is closely tied to healthy relationships between people. These positive relationships require strong communication skills including good oral and listening skills. The *Our Hidden Heroes Program* systematically provides instruction and action-based practice to support students as they develop these skills. This relationship between socially responsible character attributes and strong communication skills is reflected in the multiplicity of connections between Ontario's language arts curriculum and the *Our Hidden Heroes Program*.

The *Our Hidden Heroes Program* was developed in British Columbia and uses BC's Social Responsibility Performance Standards as a foundation (see P. 4). These Performance Standards are closely linked to Ontario's Character Education learning outcomes. Each lesson addresses at least two of these performance standards / Character Education learning outcomes.

As mentioned the ideal time to use this program is early in the school year as it will give you an opportunity to:

- Initiate a powerful proactive bullying prevention program
- Develop a positive climate in the classroom that will last the entire year.
- Get to know your students and their families as they write about their personal heroes.
- Post materials developed by the students as they work through the lessons. These can be used for easy reference throughout the year as well as to reinforce ongoing student learning as opportunities arise.
- Set up a Hidden Hero bulletin board in the classroom to recognize a different student nominated Hidden Hero each week; thereby constantly reinforcing positive character traits.
- Plan for school wide recognition of student/teacher/support staff/family Hidden Heroes during regularly scheduled assemblies.
- Set up a centrally located display area in the school where school-wide Hidden Heroes are featured. A display near the front entrance would relay the message to visitors that the school is a place where positive qualities are valued and celebrated.
- Regularly feature Hidden Heroes in school newsletters
- Announce student/staff Hidden Heroes on posters or on the changeable sign boards that many schools now use to foster communication within the school's community.
- Host an in-class or school-wide Hidden Heroes celebration where some of the students' Hidden Heroes attend and are recognized for their contributions toward making the world a better place. Have the local press attend to spread the word throughout the community.
